

## Site Plan

### Site Name

The website will be called “Clima Weather” and as its name indicates it will allow to see weather conditions.

### Site Purpose

The purpose of this site is to provide weather information for three cities. Besides, we'll use HTML5 with responsive navigation, which is compatible with most Internet browsers.

### Target Audience and Scenarios

- It can be used by anyone who is looking to find out about the weather. The people who mainly use this service are people who are booking holidays to check the weather in a different country and also for farmers to know the weather conditions for their crops. It is also used by anyone who wants to go on a fun day out.
- Ages > 16, male or female
- Low to high income economic status
- English proficiency is expected
